TerraALL

STRATEGY PRESENTATION

The Digital Face of Everglades Restorations

Every earthwork job. Any size. Anywhere.

A SERVICE OF

EVERGLADES RESTORATIONS & LAND CLEARING INC.

Prepared for Matt & Sam · Everglades Restorations & Land Clearing Inc. · October 2026 · Confidential

MEDIAIN360

AGENDA

Today's Conversation

01 The opportunity

02 Introducing TerraAll

03 Why Everglades wins

04 Discovery and the growth engine

05 Every job, Matt's choice

06 Reach, the Bid Finder app and roadmap

07 How we're building it

08 What's already built

09 How we work together, ongoing

10 Next steps

THE BIG IDEA

Every earthwork job gets the call.

$100
THE DRIVEWAY CULVERT

$100B
THE RESTORATION PROGRAM

Nobody goes after the small jobs. Almost nobody can handle the giant ones. Everglades can do both — and TerraAll makes sure every one of them comes through the door.

Earthwork Demand Is Everywhere — and Scattered

Agencies & Prime Contractors

Post solicitations across dozens of bid portals, then scramble for qualified, credentialed subcontractors who can mobilize.

Developers & Builders

Call whoever they used last time — and wait when that crew is booked. They want proven capacity and a clean schedule.

Property Owners

Search "lot clearing near me," "pond digging," "driveway culvert." Most small jobs never reach an established company.

No single company is built to catch all of it. TerraAll is.

02 · INTRODUCING

A Name Built for Every Job

Short to say, easy to remember, impossible to box into one region. TerraAll tells buyers exactly what to expect before they read another word.

Terra

Earth — the work itself: clearing, digging, grading, restoring.

All

Every job, every size, every place — and every buyer.

Same Company. A Wider Front Door.

TerraALL

The digital front door

Catches every request — any size, any buyer, anywhere.

EVERGLADES RESTORATIONS & LAND CLEARING INC.

The licensed company

Licensed, bonded and insured since 1992. Government, prime and major work — the name procurement officers verify.

Vetted Partner Network

Licensed, insured specialists for the jobs Matt chooses to route.

TerraAll is a registered trade name of Everglades Restorations & Land Clearing Inc. Every TerraAll page says so and carries the license number — borrowing 35 years of credibility from day one.

Why Everglades Wins

1992

Decades in the field

The history agencies, primes and owners trust immediately.

Ground

The hardest there is

Wetlands, canals and muck. If the crew can work here, it can work anywhere.

Fleet

Self-performing

Own equipment and crews mean real answers on scope, schedule and capacity.

Public

Government-ready

Army Corps experience, FEMA storm response, Drug-Free Workplace and E-Verify.

Judgment

Subject-matter experts

Matt can size up any job from plans, photos or video — anywhere in the world.

Proof

Real footage

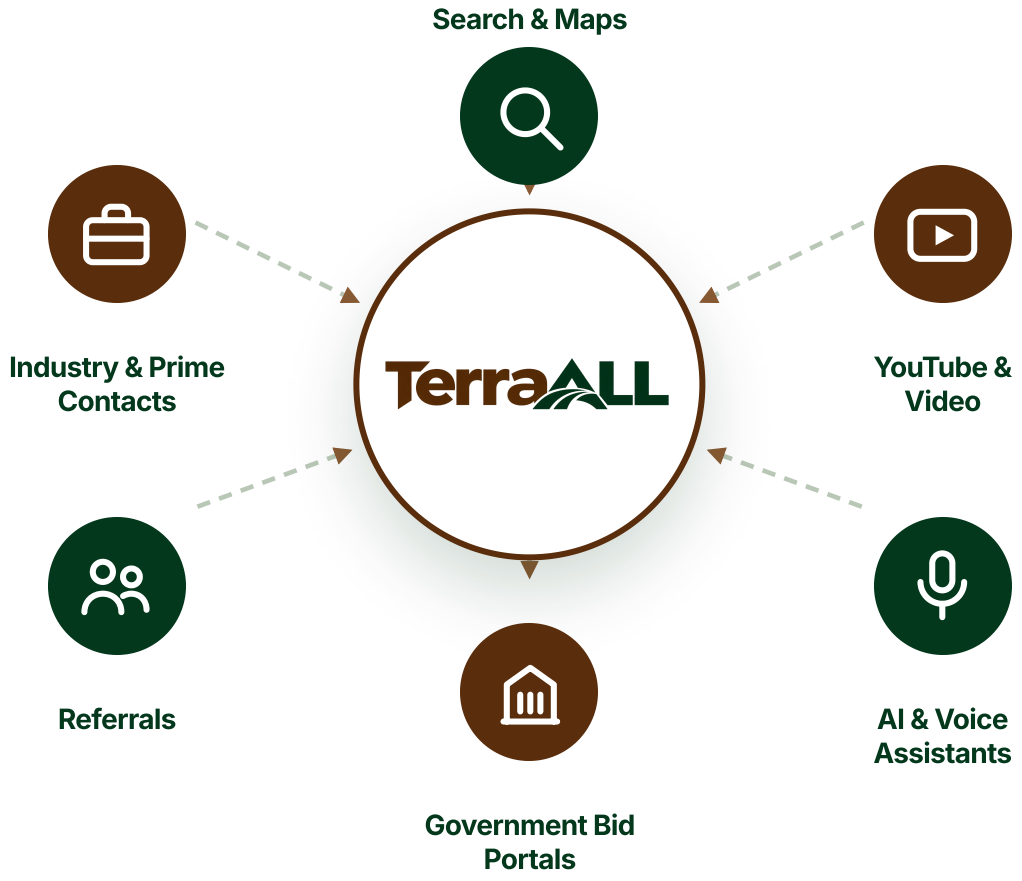

Years of job video: evidence competitors don't have, and the raw material for thousands of pages.

Every Direction. Every Opportunity.

People search differently. Some use Google, YouTube or AI. Others use government bid portals, referrals or industry contacts.

MediaIn360 connects every one of these discovery channels to a single digital front door: **TerraAll**.

From a $100 repair to a multiyear restoration program, every opportunity should reach Matt.

One Engine. Many Doors.

STEP 1

Found

Google, Maps, YouTube, AI assistants and government bid portals.

STEP 2

TerraAll

One front door for every request — any size, any buyer.

STEP 3

Sorted

By size, type, buyer and location — automatically.

STEP 4

Matt's Call

Take it, team it, route it — or 86 it.

STEP 5

Proof

Each finished job is filmed and becomes a new page.

Every new page brings in the next request — the engine feeds itself.

Every Project Makes the Next One Easier to Find.

Every real project, video, customer question and qualified inquiry gives us something new to learn from.

We turn that knowledge into better content, stronger visibility and smarter decisions.

TerraAll doesn't just go live. It keeps growing, learning and improving.

05 · EVERY JOB, MATT'S CHOICE

Take It. Team It. Route It. Or 86 It.

EVERGLADES DOES IT

Take It

Large clearing, restoration, government and prime work, storm response. The crew performs and the job becomes proof.

EVERGLADES LEADS

Team It

Everglades runs the job and brings in a licensed partner for a specialty or extra capacity.

A PARTNER DOES IT

Route It

Too small, too far or too specialized? A vetted partner performs — and Everglades earns points on the work.

NO OBLIGATION

86 It

Not a fit? Pass. No cost, no commitment. The request still teaches the system what buyers want.

TerraAll never obligates Everglades to anything. The partner and referral structure is set up once with the company's attorney before launch.

THE PROMISE

Built in the Everglades. Ready for Anywhere.

The toughest ground in the country is the training ground. That story — told through real job video — is what sets the brand apart from every other earthwork company online.

From Home Base to Anywhere

Home Base
Where the reputation lives

Statewide
Every job, every county

National
As partners and jobs open each place

International
Projects Anywhere

A place goes on the map only when a real job has been done there — so every location page is honest, and search engines reward it.

The Bid Finder App

A private app, built just for Everglades, that searches public bids and programs across the country every night and shows Matt only what's worth his time.

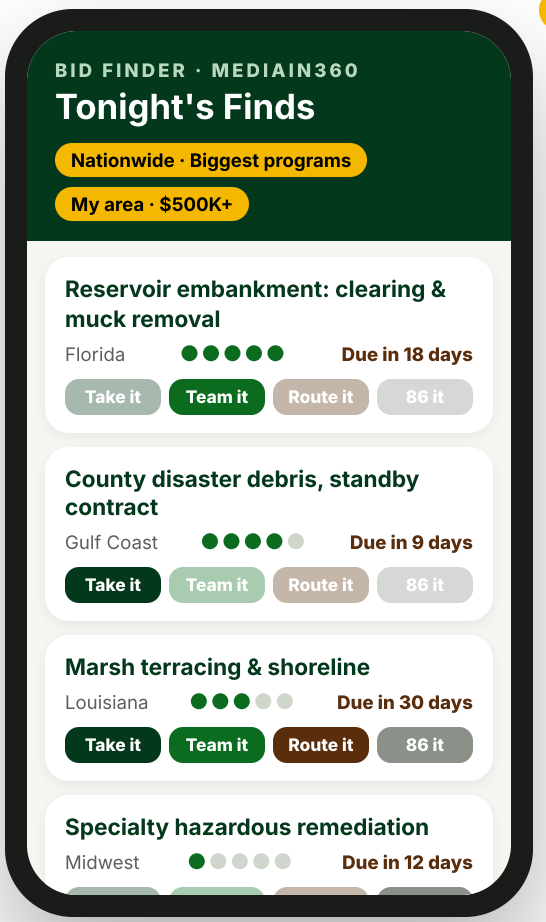

1 **While you sleep, it searches.**
Any size, any area: you set the dials. Big programs nationwide, right-sized jobs close to home.

2 **Every morning, you pick.**
Tap Take it, Team it, Route it or 86 it.

3 **We help with the legwork.**
Plain-English bid summaries, bid writing and production support. You check, finalize and sign.

EXAMPLE

Five Phases to Full Reach

0

PHASE 0

Launch Everglades

Real licenses, photos and video. Live on the real domain. Business profile, reviews and listings.

1

PHASE 1

Content engine

Every job video becomes a dated page. Top buyer questions answered in Matt's words. Request sorting live.

2

PHASE 2

Stand up TerraAll

Name and domain secured, trade name registered, partner standards set, front door launched.

3

PHASE 3

Scale with real data

Permit guides by county, cost guides from real jobs, answered questions, partner job pages.

4

PHASE 4

Go wide

Statewide, national, then international — each place opening as jobs and partners exist there.

Eight Principles Behind Every Page

Procurement first

Licenses, registrations and compliance where contracting officers look — on every page.

Real proof

Every claim links to evidence: dated job video, credentials and policies.

Search-safe growth

Every page backed by a real job, answer or guide — so the library can grow very large, safely.

Voice & AI ready

Short, direct answers first — the format assistants use when recommending a company.

Video as the engine

Each video is proof for buyers and a new door from YouTube search.

Clean & accessible

Fast on any phone and built to accessibility standards agencies expect.

One engine

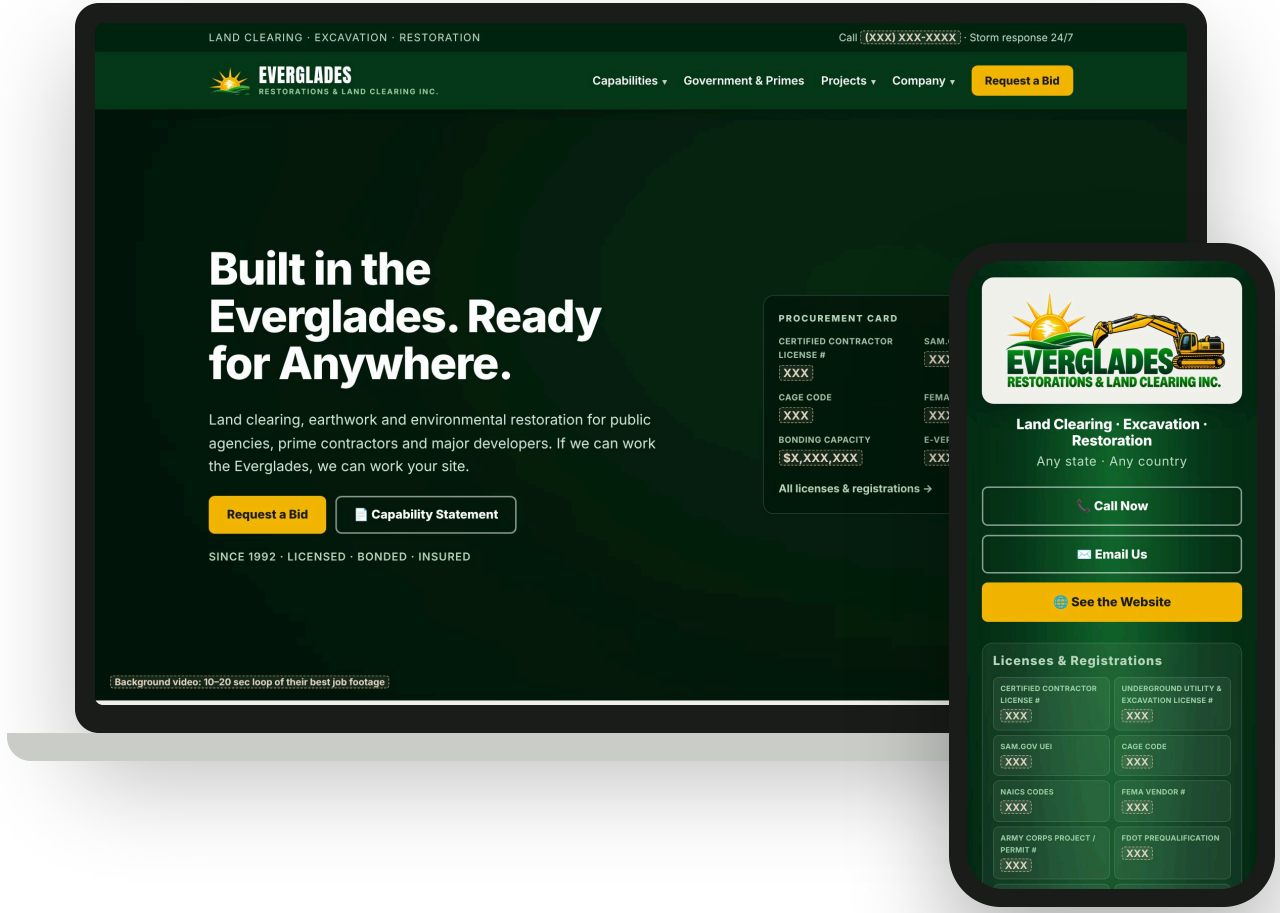

One question bank, one video pipeline, one sorting system for both brands.

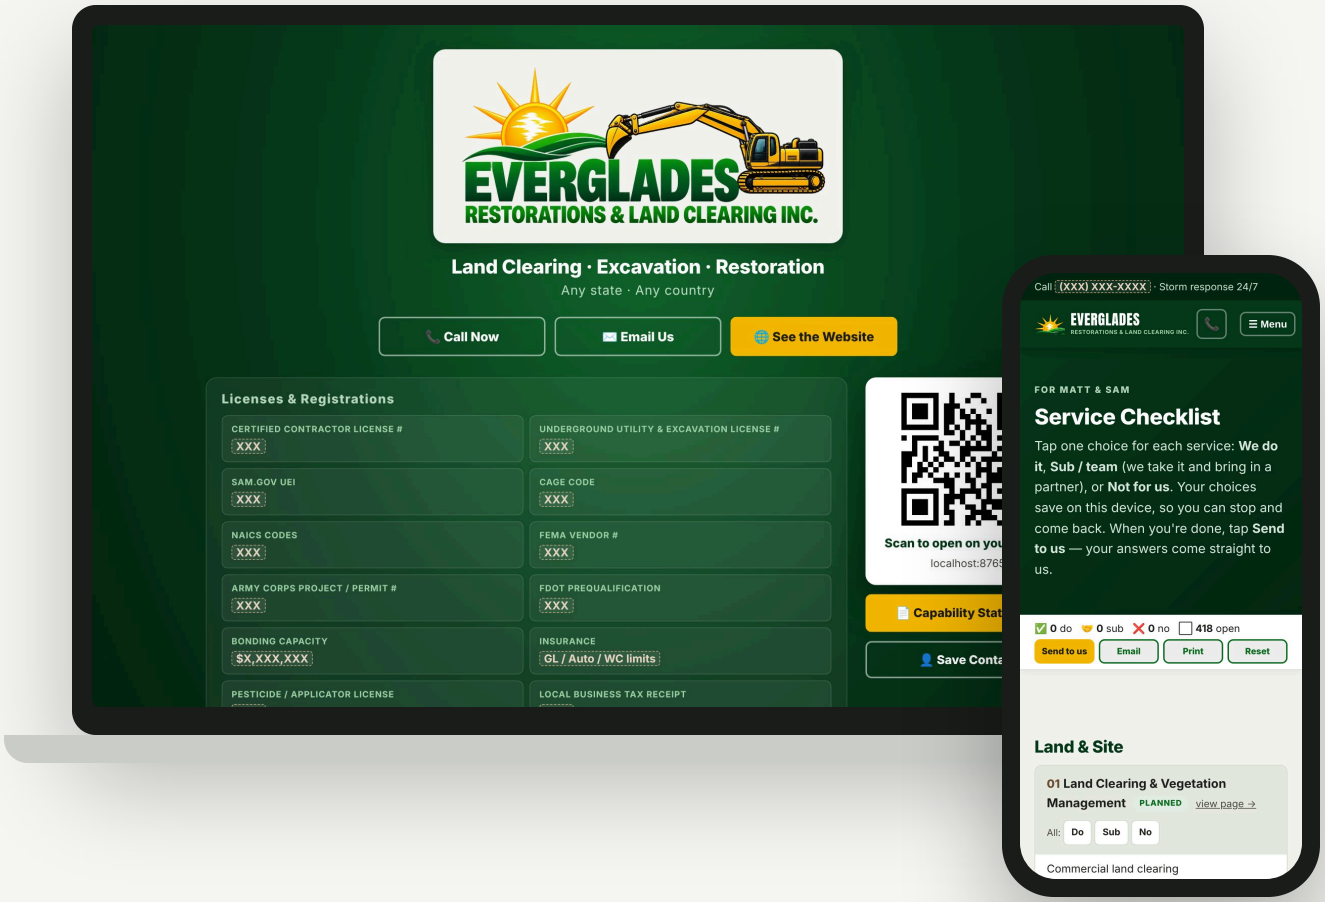

Owned outright

The site, content, video and domain belong to the company. Everything compounds.

The Foundation Is in Place

- **Digital business card** — QR code, every license, save-contact
- **Full preview website** for procurement and every buyer
- **Capability map** across land, water, cleanup, infrastructure, disaster and rural work
- **One-page capability statement**, print-ready
- **Service checklist** for Matt: do it, team it or not for us
- **Buyer question bank** for voice and AI search
- **Legal & compliance** pages and a passed accessibility audit

08 · BUILT FOR THE BUYER

What a Contracting Officer Sees

In seconds: who Everglades is, every license and registration, a capability statement to download, and a direct line to the people who do the work.

And for Matt: a simple checklist to choose which services Everglades takes on, teams up on or passes along — so the build follows the business.

You Run the Projects. We Grow the Opportunities.

MEDIAIN360

We build, manage and continually improve the system

- The digital system that helps buyers find you, understand your capabilities and contact you
- Websites, content, videos, search visibility and technology
- Hosted, maintained and supported on MediaIn360's servers — updates pushed live directly
- The Bid Finder app: a nightly bid search, plus optional bid support
- Outside specialists managed for you, plus regular reviews

EVERGLADES RESTORATIONS & LAND CLEARING INC.

You bring the experience and the judgment

- Experience, equipment, relationships and judgment
- You decide which opportunities to pursue and which to perform
- Which to coordinate through qualified partners — and which to decline
- Approvals, footage and answers that only you can give

Build & launch
MediaIn360 builds and pushes it live

Grow
Results reviewed, next concept chosen

One Partnership. Two Areas of Expertise. A Much Bigger Reach.

The TerraAll Digital Findability Network

A living, breathing, growing ecosystem: designed, developed, perfected, managed and maintained by MediaIn360.

Hosting & Security

On MediaIn360's servers: backups, security certificates, monitoring and fast pages.

Maintenance & Support

Fixes, updates and changes handled quickly. One call or text, and it's done.

Upgrades & New Features

The system keeps growing: new pages, tools and ideas as the business grows.

Bid Finder App

A nightly search of public bids nationwide, filtered to the size and area Matt chooses.

Video & Content

The job-video archive, a page for every job, the opening video and the agency reel.

Bid Support

Plain-English bid summaries, bid writing and production. Matt finalizes and signs. Additional service.

Specialists Managed

Outside vendors and experts brought in and directed, so Matt never has to chase anyone.

One Point of Contact

One accountable partner for everything digital, with regular reviews of what's next.

Not a one-time website. A system that keeps growing, and keeps finding work.

What It Takes to Go Live

From Matt & Sam

- Every license and registration number
- Contact details, headquarters and hours
- Job photos and the best video clips
- Service checklist and top buyer answers
- Domain name decision

To stand up TerraAll

- Trademark search and domain secured
- Trade name registered to the corporation
- Attorney review of the partner structure
- Partner standards: licensing, insurance, quality
- Launch the TerraAll front door

TERRAALL

Every Earthwork Job.
Any Size. Anywhere.

From the smallest job to the largest undertaking.
