Bid package: large (scored RFP / federal)	$5,000–$25,000+
Rush (deadline under 5 business days)	+25–50%

TERRITORY RULES

- **Territory = trade × region** (e.g., paving in Palm Beach County).
- **Seat cap:** 3 seats per trade per region, then closed. Scarcity holds price.
- **Exclusive, full lock:** no seats sold in their trade and territory. Highest price.
- **Exclusive, first look:** seats allowed, but Exclusive client sees new finds 48–72 hours earlier.
- **Overlapping trades** (e.g., land clearing vs site prep) defined in each agreement.
- **Everglades:** no seats sold in earthwork in his territory.

COSTS & CAUTIONS

- **Pass-through:** servers, AI usage, bid-platform subscriptions, software licenses. At cost, or bundled with a stated ceiling.
- **Outside specialists** (estimators, surety, legal): billed separately.
- **Bid cap:** every tier states how many packages are included.
- **No success fees** on government contracts without attorney review (federal contingent-fee rules).
- **Data terms:** sell the finding, filtering and summaries, linking to official sources. Attorney review before selling seats.
- **Unit cost:** one nightly sweep serves every client; each extra seat costs little to serve.

Founding partner: Everglades (TerraAll Intelligence, powered by BidIn360) — $895–$995 / week · setup absorbed · in return: case-study and video rights, referrals outside his market, earthwork territory protected

Prices are launch hypotheses; adjust to what renews.
