TerraALL

STRATEGY PRESENTATION

The Digital Infrastructure Behind Everglades

Every earthwork job. Any size. Anywhere.

A SERVICE OF

EVERGLADES RESTORATIONS & LAND CLEARING INC.

Prepared for Matt & Sam · Everglades Restorations & Land Clearing Inc. · October 2026 · Confidential

MEDIAN360

AGENDA

Today's Conversation

01 The opportunity and TerraAll

02 Be found

03 Find the work: TerraAll Project Finder

04 Win the work

05 Keep it running

06 Next steps

THE BIG IDEA

Every earthwork job gets the call.

$100
THE DRIVEWAY CULVERT

$100B
THE RESTORATION PROGRAM

Nobody goes after the small jobs. Almost nobody can handle the giant ones. Everglades can do both — and TerraAll makes sure every one of them comes through the door.

THE WHOLE SYSTEM

Not a Website. A Living Digital Infrastructure.

The website is one piece of hundreds. Four parts work as one system: always on, always growing, getting smarter every month, with as little of Matt's time as possible.

01

Be Found

Website, job videos, search and AI answers. Buyers find Everglades the moment they look.

02

Find the Work

TerraAll Project Finder searches public bids everywhere, every night.

03

Win the Work

Every bid dug into, explained in plain English and packaged to send.

04

Keep It Running

Hosting, upgrades, support and new ideas. It never sits still.

Not a website. Not a bid feed. The whole system, for one company.

Earthwork Demand Is Everywhere — and Scattered

Agencies & Prime Contractors

Post solicitations across dozens of bid portals, then scramble for qualified, credentialed subcontractors who can mobilize.

Developers & Builders

Call whoever they used last time — and wait when that crew is booked. They want proven capacity and a clean schedule.

Property Owners

Search "lot clearing near me," "pond digging," "driveway culvert." Most small jobs never reach an established company.

No single company is built to catch all of it. TerraAll is.

01 · INTRODUCING TERRAALL

A Name Built for Every Job

Short to say, easy to remember, impossible to box into one region. TerraAll tells buyers exactly what to expect before they read another word.

Terra

Earth — the work itself: clearing, digging, grading, restoring.

All

Every job, every size, every place — and every buyer.

Same Company. A Wider Front Door.

TerraALL

The digital front door

Catches every request — any size, any buyer, anywhere.

EVERGLADES RESTORATIONS & LAND CLEARING INC.

The licensed company

Licensed, bonded and insured since 1992. Government, prime and major work — the name procurement officers verify.

Vetted Partner Network

Licensed, insured specialists for the jobs Matt chooses to route.

TerraAll is a registered trade name of Everglades Restorations & Land Clearing Inc. Every TerraAll page says so and carries the license number — borrowing 35 years of credibility from day one.

How We Make This Bigger

Proof

Your videos become the proof

Every job you've filmed becomes a page buyers can see.

Found

Everywhere buyers look

Google, YouTube, AI assistants and bid portals all lead to Everglades.

Listed

On every list that matters

Vendor registrations and primes' sub lists, so the call comes before the bid drops.

Prime

Go after the enormous ones

The Project Finder spots the biggest projects for Everglades to lead.

Sub

Or find who's leading

If Everglades isn't the prime, we find out who is, and whether they need a sub.

Wide

Any state, any country

Growing one real job at a time.

Nothing changes for you. We run everything behind the scenes.

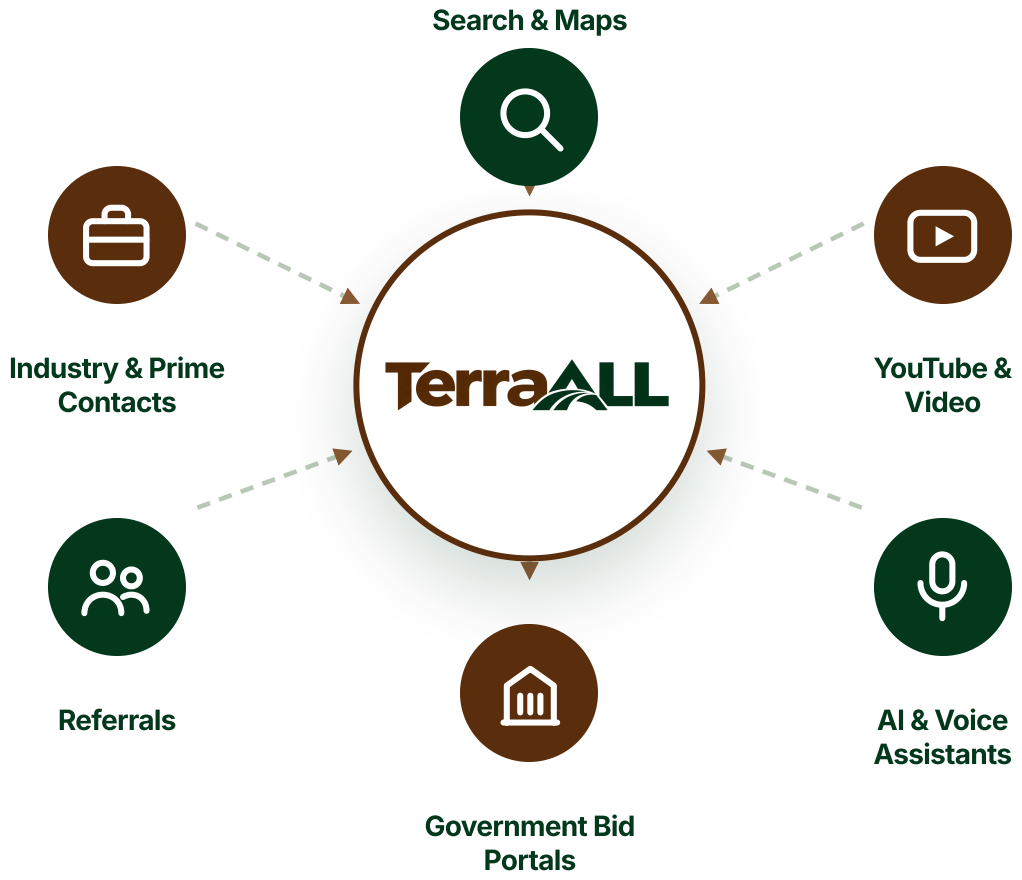

02 · BE FOUND

Every Direction. Every Opportunity.

People search differently. Some use Google, YouTube or AI. Others use government bid portals, referrals or industry contacts.

MediaIn360 connects every one of these discovery channels to a single digital front door: **TerraAll**.

From a $100 repair to a multiyear restoration program, every opportunity should reach Matt.

02 · BE FOUND

One Engine. Many Doors.

STEP 1

Found

Google, Maps, YouTube, AI assistants and government bid portals.

STEP 2

TerraAll

One front door for every request — any size, any buyer.

STEP 3

Sorted

By size, type, buyer and location — automatically.

STEP 4

Matt's Call

Take it, team it, route it — or 86 it.

STEP 5

Proof

Each finished job is filmed and becomes a new page.

Every new page brings in the next request — the engine feeds itself.

02 · BE FOUND

Every Project Makes the Next One Easier to Find.

Every real project, video, customer question and qualified inquiry gives us something new to learn from.

We turn that knowledge into better content, stronger visibility and smarter decisions.

TerraAll doesn't just go live. It keeps growing, learning and improving.

Meet the TerraAll Project Finder

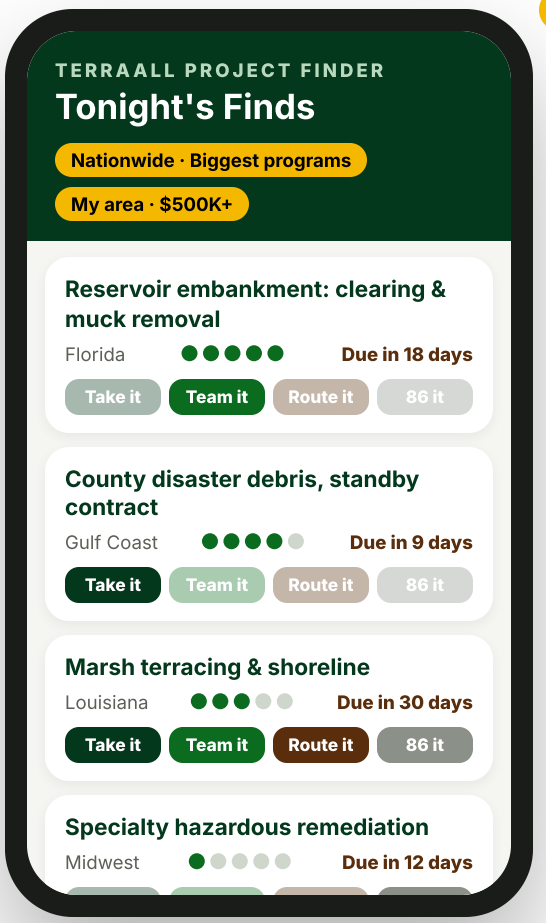

A custom app that searches public bids everywhere, every night, and brings back the ones worth chasing.

1. **While you sleep, it searches.**
   New bids pop up every day: federal, state, local, everywhere. It catches them as they land.

2. **Every morning, you choose.**
   Take it, Team it, Route it or 86 it. One tap.

3. **We do the legwork.**
   We dig into the ones you want and get them ready to send. You price, check and sign.

EXAMPLE

Everywhere It Looks

- 🏛️ Federal agencies
- 🗺️ States
- 🏙️ Counties & cities
- 🏫 School boards
- 💧 Water & flood districts
- 🛣️ Transportation departments
- ⚡ Utilities & energy
- ⚓ Ports & airports
- 🏗️ Prime contractors
- 🌎 International programs

Matt sets the dials. Change them anytime.

Size
From local jobs to billion-dollar programs

Area
A county, a state, the whole country or beyond

Work
Only the services Everglades wants

Role
Prime, sub, teaming or standby

Public bids are free to find. The only cost is the time to bid, and we carry most of that.

Where the Big Programs Are

FLORIDA

Everglades Restoration

Reservoirs, flow ways, pump stations and treatment areas, funded by federal and state partners.

Way in: clearing, grubbing, muck removal and earthwork under the primes

NATIONWIDE

Army Corps Award Pools

Multi-year construction and environmental contracts by district, many set aside for small businesses.

Way in: earn a seat in the pool, compete for each job

ANY STATE

Disaster Debris

Pre-arranged federal, state DOT and county contracts that switch on after storms.

Way in: county contracts directly; subcontract to debris primes

NATIONWIDE

Superfund & Cleanup

EPA and defense site cleanups, with steady federal funding every year.

Way in: excavation and hauling, teamed with licensed cleanup firms

GULF COAST

Coastal Restoration

Marsh creation, terracing and shoreline protection across a large pipeline of state projects.

Way in: earthwork packages and in-state partners

EVERY REGION

Flood Control & Resilience

Canals, drainage, levees and stormwater for water districts and resilience programs.

Way in: prime the right-sized jobs; team on the large ones

Examples from public sources, October 2026. Each opportunity is verified against the actual solicitation before any decision.

03 · FIND THE WORK

Take It. Team It. Route It. Or 86 It.

EVERGLADES DOES IT

Take It

Large clearing, restoration, government and prime work, storm response. The crew performs and the job becomes proof.

EVERGLADES LEADS

Team It

Everglades runs the job and brings in a licensed partner for a specialty or extra capacity.

A PARTNER DOES IT

Route It

Too small, too far or too specialized? A vetted partner performs — and Everglades earns points on the work.

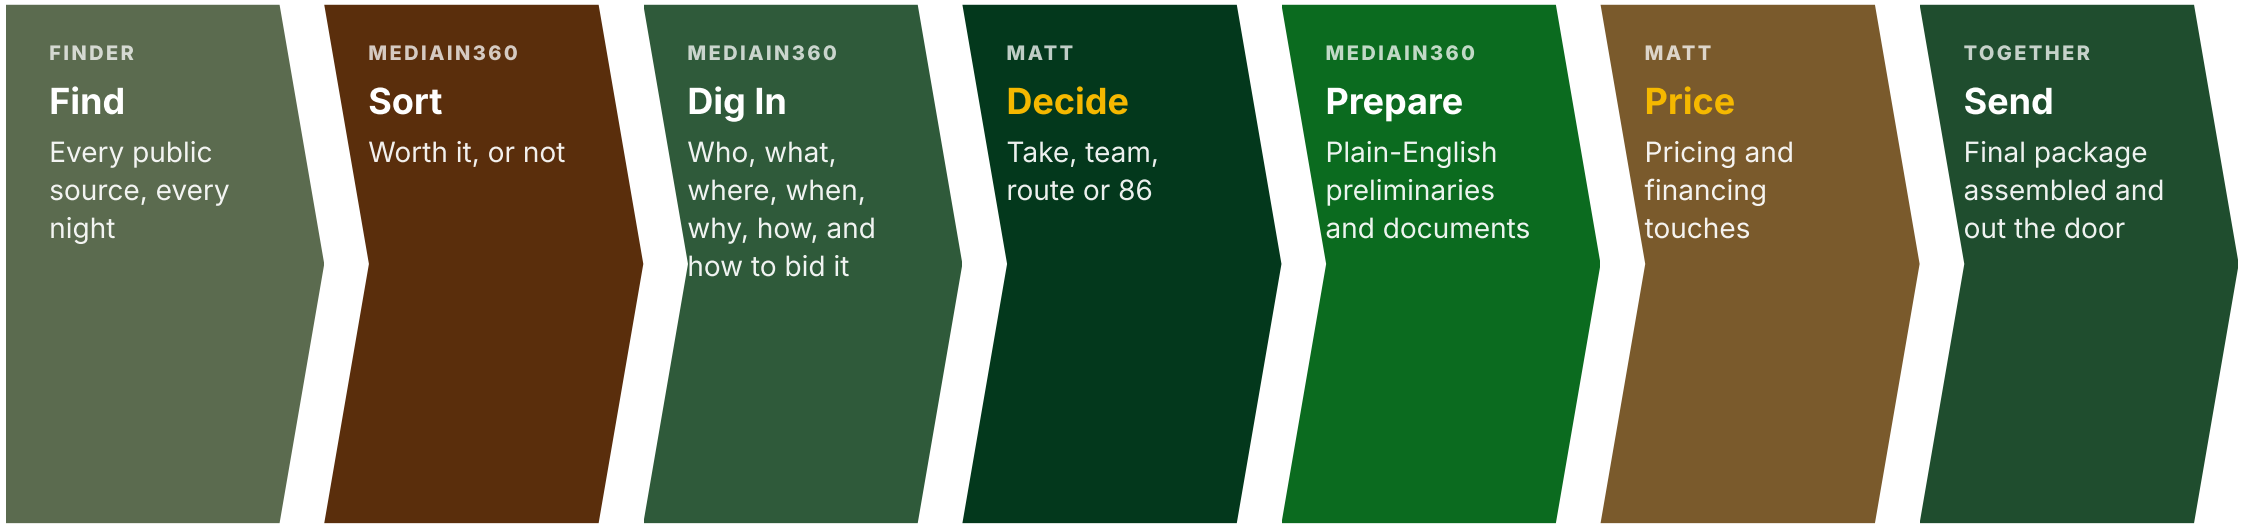

NO OBLIGATION

86 It

Not a fit? Pass. No cost, no commitment. The request still teaches the system what buyers want.

TerraAll never obligates Everglades to anything. The partner and referral structure is set up once with the company's attorney before launch.

From Find to Finish

Tomorrow night it starts again. Get ahead of the curve, and stay there.

Matt stays in charge. He sets every price, checks every statement and signs every bid. Agencies require the owner to certify it.

No guarantees. We make every bid stronger and on time. Awards are always the agency's decision.

Dig In: The Bid in Plain English

Hundreds of pages of government language

Bid Summary: Canal Maintenance Task Order

EXAMPLE

WHAT THEY WANT	Clean out and reshape canals; haul and dispose of the material.
WHO CAN BID	✔ Small businesses in the award pool. Everglades qualifies.
MUST HAVE	✔ License, bonding, insurance, safety plan
MISSING	! Updated safety record letter
KEY DATES	Site visit XX/XX · Questions due XX/XX · Bid due XX/XX
OUR TAKE	Strong fit. Recommend Take it.

Going Big as the Prime

A billion-dollar job is a team sport. Here's how a company Everglades' size wins one, and makes it work.

Joint Venture

Partner with a large firm for one project. Share the work, the bonding and the win.

Mentor-Protégé

A federal small-business program that pairs Everglades with an experienced large company, so they can bid big contracts together.

Teaming With a Prime

Be the named earthwork partner on a prime's team from day one, not a phone call after the award.

Project Finder spots the big ones early, so the team is in place before the bid drops.

Structure, bonding and licensing reviewed with the company's surety and attorney before any bid.

THE PROMISE

Built in the Everglades. Ready for Anywhere.

The toughest ground in the country is the training ground. That story — told through real job video — is what sets the brand apart from every other earthwork company online.

Five Phases to Full Reach

0

PHASE 0

Launch Everglades

Real licenses, photos and video. Live on the real domain. Business profile, reviews and listings.

1

PHASE 1

Engines on

Every job video becomes a dated page. Project Finder starts its nightly sweep. Request sorting live.

2

PHASE 2

Stand up TerraAll

Name and domain secured, trade name registered, partner standards set, front door launched.

3

PHASE 3

Scale with real data

Permit guides by county, cost guides from real jobs, answered questions, partner job pages.

4

PHASE 4

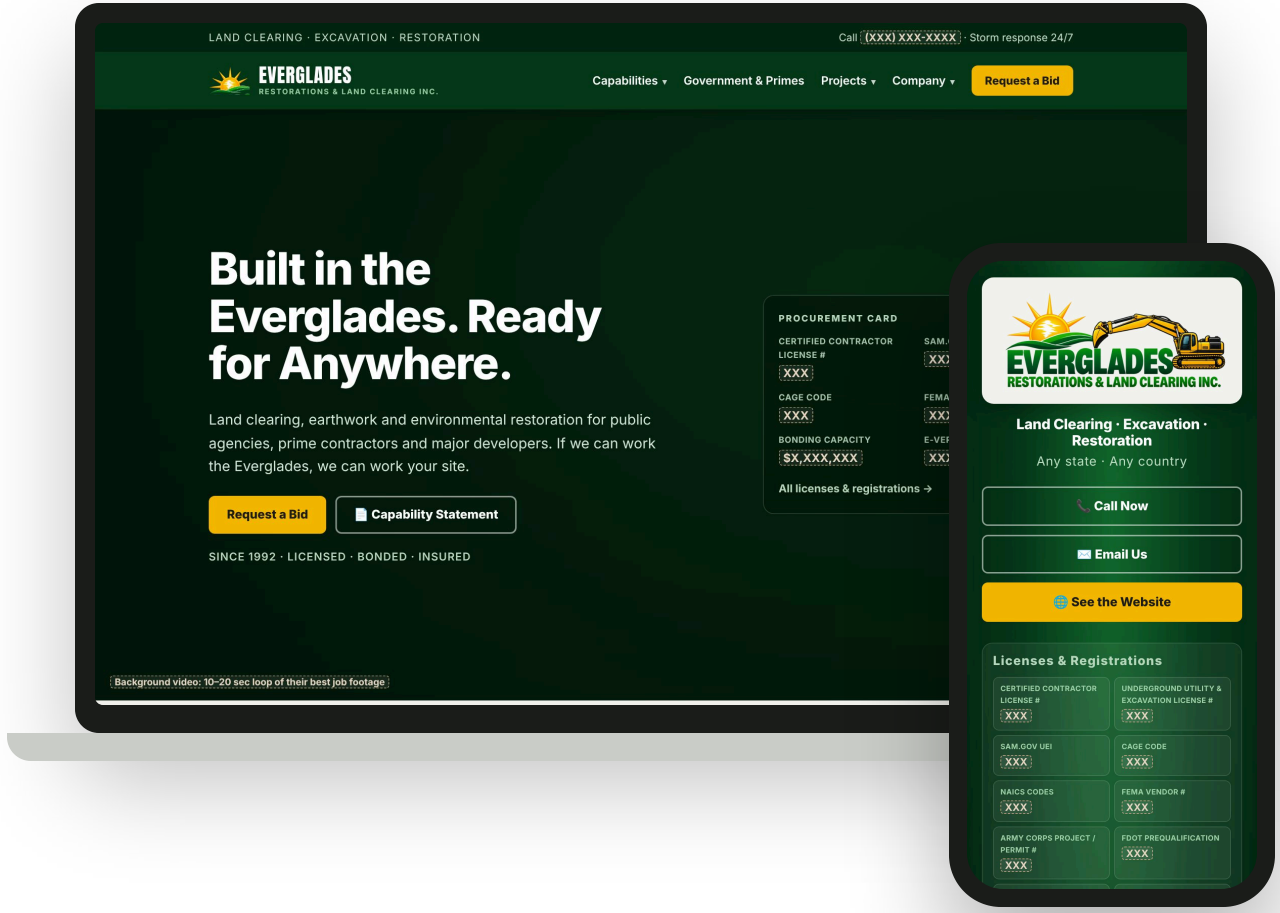

Go wide

Statewide, national, then international — each place opening as jobs and partners exist there.

Home base → statewide → national → international, each place opening as real jobs and partners exist there.

The Foundation Is in Place

- **Digital business card** — QR code, every license, save-contact
- **Full preview website** for procurement and every buyer
- **Capability map** across land, water, cleanup, infrastructure, disaster and rural work
- **One-page capability statement**, print-ready
- **Service checklist** for Matt: do it, team it or not for us
- **Buyer question bank** for voice and AI search
- **Legal & compliance** pages and a passed accessibility audit

05 · KEEP IT RUNNING

The TerraAll Digital Findability Network

Living, breathing, growing and smarter every month. Designed, developed, perfected, managed and maintained by MediaIn360.

Hosting & Security

On MediaIn360's servers: backups, security certificates, monitoring and fast pages.

Maintenance & Support

Fixes, updates and changes handled quickly. One call or text, and it's done.

Upgrades & New Features

The system keeps growing: new pages, tools and ideas as the business grows.

TerraAll Project Finder

Every public source, every night, filtered to the size, area and work Matt chooses.

Video & Content

The job-video archive, a page for every job, the opening video and the agency reel.

Bid Preparation

Dig-ins, plain-English summaries, preliminaries and final packages. Matt prices and signs.

Specialists Managed

Outside vendors and experts brought in and directed, so Matt never has to chase anyone.

One Point of Contact

One accountable partner for everything digital, with regular reviews of what's next.

Not a one-time website. A system that keeps growing, and keeps finding work.

You Run the Projects. We Grow the Opportunities.

MEDIAIN360

We build, manage and continually improve the system

- The digital system that helps buyers find you, understand your capabilities and contact you
- Websites, content, videos, search visibility and technology
- Hosted, maintained and supported on MediaIn360's servers — updates pushed live directly
- TerraAll Project Finder: every public bid, every night, plus bid preparation
- Outside specialists managed for you, plus regular reviews

EVERGLADES RESTORATIONS & LAND CLEARING INC.

You bring the experience and the judgment

- Experience, equipment, relationships and judgment
- You decide which opportunities to pursue and which to perform
- Which to coordinate through qualified partners — and which to decline
- Approvals, footage and answers that only you can give

Propose
A short brief for each new concept

Build & launch
MediaIn360 builds and pushes it live

Grow
Results reviewed, next concept chosen

One Partnership. Two Areas of Expertise. A Much Bigger Reach.

What It Takes to Go Live

From Matt & Sam

- Every license and registration number
- Contact details, headquarters and hours
- Job photos and the best video clips
- Service checklist and top buyer answers
- Domain name decision
- Project Finder dials: size, area and type of work

To stand up TerraAll

- Trademark search and domain secured
- Trade name registered to the corporation
- Attorney review of the partner structure
- Partner standards: licensing, insurance, quality
- Launch the TerraAll front door

TERRAALL

Every Earthwork Job.
Any Size. Anywhere.

From the smallest job to the largest undertaking.
